rolifv()

Adverb - A word used to modify a verb.

`rollify()` takes a function and turns it
into a rolling version of itself

function

Let's get things rolling

rollify()

Adverb - A word used to modify a **verb**.

function

A red curved arrow pointing from the word 'function' to the word 'verb' in the previous block.

rollify() takes a function and turns it into a rolling version of itself
